

General Environmental Incident Summary

Incident: 3810 **Date/Time Notice:** 7/7/2015 1400 **DEM Incident No:**
Responsible Party: QC ER Texas
Date Incident: 10/22/2014 **Time Incident:** 0800 **Duration:** 3 hours
County: Williams **Twp:** 155 **Rng:** 101 **Sec:** 20 **Qtr:** SW SW SW
Lat: 48.22720 **Long:** -103.71200 **Method:** Navigation quality GPS
Location Description: East shoulder of 140th Avenue NW (County Road 7), directly north of intersection with 56th St NW (County Road 6).
Submitted By: George Sabo **Affiliation:** Agent
Address: 6001 Cochran
City: Solon **State:** OH **Zip:** 44139

Received By:

Contact Person: Jim Rakitsky
102 Pickering Way
Exton , PA 19341

Distance Nearest Occupied Building:

Release Contained: No

Type of Incident: Vehicle Accident

Description of Released Contaminant: UN 1267 Crude oil

Volume Spilled: 101.00 barrels

Ag Related: No

EPA Extremely Hazardous Substance: No

Reported to NRC: Unknown

Cause of Incident:

Commercial tanker vehicle involved in single vehicle accident resulting in the release of 101 bbls of crude to the soil shoulder.

Risk Evaluation:

Immediate risk was possible ground water contamination

of Fatalities:

of Injuries:

Affected Medium: 03 - soil

Potential Environmental Impacts:

Minimal potential due to frozen ground and location

Action Taken or Planned:

Remaining approximately 100 bbls were transferred to rescue vehicle. Area was excavated to remove contaminated soil. Additional remediation is pending and should be completed within next 2 weeks. Initial notification was made to ND DH emergency phone line and Kris Roberts and Russel Martin notified and acknowledged incident. This report is being made to ensure all reporting requirements are met

Wastes Disposal Location: Waste was disposed of at R360 environmental in Tioga ND

Updates

Date: 10/22/2014 **Status:** Inspection

Author: Martin, Russell

Updated Volume:

Notes:

10/22/2014 at 11:54 a.m., on location. Met with county police, company insurance rep, and cleanup company. Trucker pulling 210 bbl crude oil tank trailer overturned into eastside ditch just north of the intersection of 140th ave NW and 56th ST NW (along the williston truck bypass). DOT has erected a sand berm downgrade of where crude oil is leaking from the trailer into the ditch. Another tanker truck is currently pumping out crude oil accumulating behind the sand berm. There is some additional leakage, from overturned semi's saddle tank and engine oil from the motor, onto the roadway and shoulder ground/vegetation. No water currently in the ditch. At approximately 13:00, equipment from cleanup company arrived on-site.

Date: 10/23/2014 **Status:** Inspection

Notes:

NDDoH was notified verbally when incident occurred back on 10/22/2014, however a formal report of the incident was never filed. After the formal report was filed, the company rep contacted NDDoH to inform that the location and date were incorrect. Staff updated the record with correct location and date.
